

## DOCUMENTATION

# Font Settings

Changing the font can be done via adding these lines to the right-hand pane of [Preferences](#) ► [Settings](#) :

```
"font_face": "Courier New",  
"font_size": 10
```

and then change as desired. The font will change when you save.

You can see other settings to change by browsing through the left-hand pane of [Preferences](#) ► [Settings](#) . There are many things that can be customized in Sublime Text.
