Total Duration of Playlist in VLC Player?

In VLC, is it possible to know the total duration of the Playing of a Playlist?

21

2

A screenshot of the VLC media player's "Playlist" window. The window has a title bar with "Playlist" and a search icon. Below the title bar is a table with two columns: "Title" and "Duration". The table lists several video files with their durations. A red rectangular box highlights the "Duration" column, specifically the values 29:14, 29:26, 29:07, 48:50, 43:45, 47:17, and 48:14.

Title	Duration
[icon] [unclear].mp4	29:14
[icon] [unclear].mp4	29:26
[icon] [unclear].mp4	29:07
[icon] 1 5.mp4	48:50
[icon] 1 6.mp4	43:45
[icon] 2 1.mp4	47:17
[icon] 2 2.mp4	48:14

In case you still can't locate it:

21

As of VLC version 2.1 for Windows and Linux, you can see the total playlist duration next to the playlist menu item on the left side-bar in the playlist view.

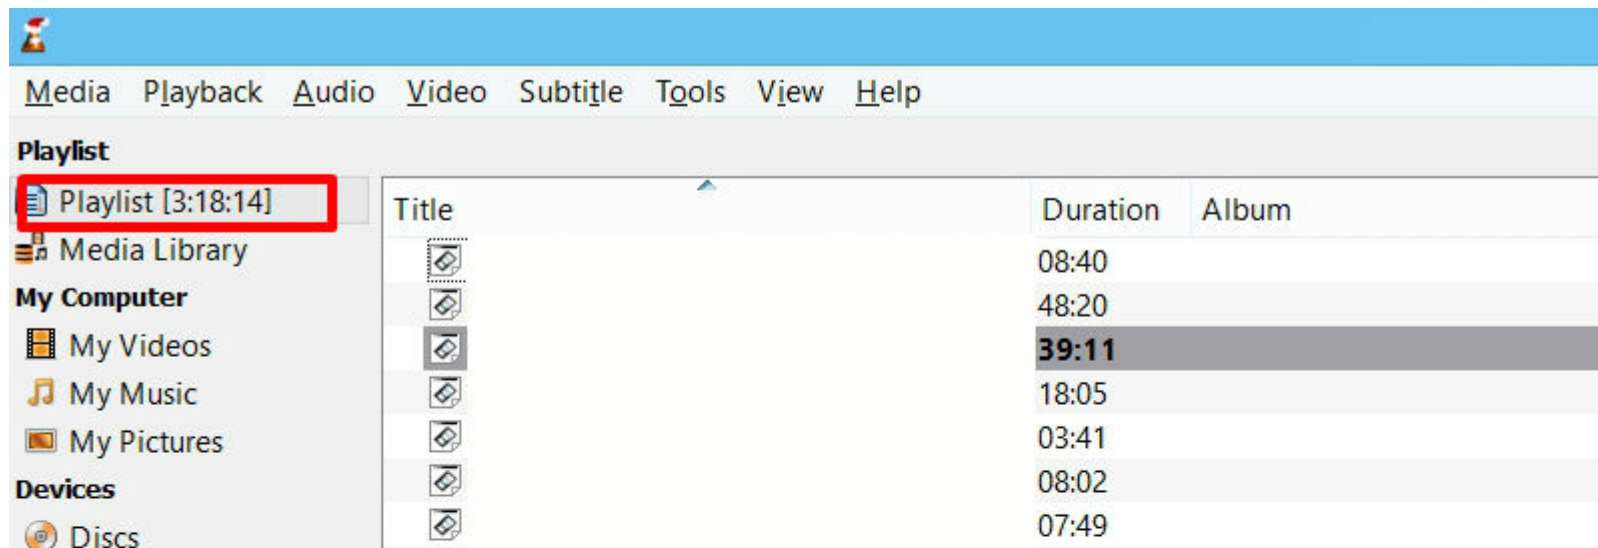

(I just spent a few minutes trying to find it!)

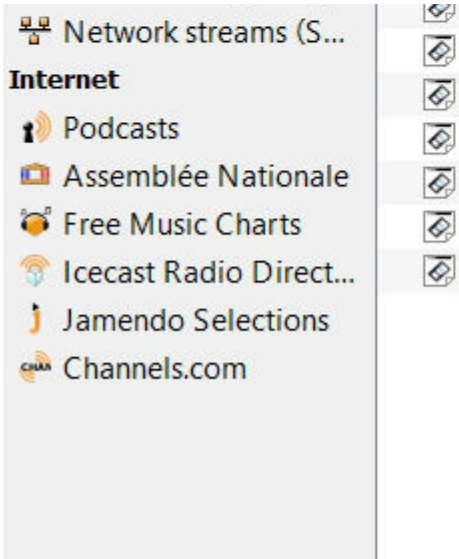

VLC version 2.1.2 on Win 8.1

Yes, upgrading works. On Ubuntu etc, need to do something like [ubuntuhandbook.org/index.php/2014/02/...](http://ubuntuhandbook.org/index.php/2014/02/) – Owen_R Mar 8 '14 at 13:10

As of VLC v2.1.5, the Mac version doesn't have this (running MacOS X 10.8). – Mei Feb 26 '15 at 16:07

Here is another VLC Player extension to display the total playlist duration: [github: bentrevor/vlc-extension](https://github.com/bentrevor/vlc-extension).

5 Once installed, on OS X, it works/looks like this:

This [script](#) may be of interest to you. It is supposed to enable total playlist time in VLC. Also worth a look is this [forum post](#).
